## **CLOSURE OF PLAINVILLE ROAD** **MADISON ROAD TO INDIAN HILL ROAD**

Beginning August 18, 2004, Plainville Road will be closed to northbound traffic between the hours of 9:00 A.M. until 7:00 P.M., Monday through Thursday. This closure is the first of two phases for this project and is expected to last approximately 30 days. The first phase provides time to install a water main for the Cincinnati Water Works. The second phase will close the northbound direction of Plainville Road at all times for 30 days. The second phase provides time to install a sanitary sewer for the Metropolitan Sewer District.

The detour for northbound Plainville Road under both phases will be west on Roe Street, to north on Whetsel Avenue, to east on Madison Road, back to Plainville/Camargo Road.

There will also be a need to close Plainville Road in both directions between Madison Road and Indian Hill Road for two days between the two phases approximately on September 18, 2004. The detour for southbound Plainville Road will be west on Madison Road, to south on Whetsel Avenue, to east on Roe Street back to Plainville Road. A marked detour will be provided. The precise dates of the two day full closure will be announced as construction proceeds. All construction work will be done by Ford Development and local access will be maintained on Plainville Road between Roe Street and Indian Hill Road throughout construction.

**Metro bus service will be re-routed around the area. Follow instructions posted on your regular stand or contact Metro. Motorists are encouraged to use caution and reduce speed when approaching the work area.**
